LOCAL RESIDENT

ACQUAINTED WITH
ULSTER PREMIER

Jas. Pettigrew, a native of loyal Ulster has been a visitor at the Craighaven home of Sir James Craig, Ulster's new premier, and states that Sir James is just the man to weld the warring factions of Ireland together, and the new premier's declaration on his election gives splendid promise of a new era of peace in Erin's Isle.

O. K. BLOMLIE TAKES

OVER CEREAL CHURCH

On Sunday morning last O. K. Blomlie, of Minneapolis, Minn., was ordained into the ministry at the Cereal Lutheran Church, by Rev. J. R. Lavik, of Saskatoon, president of the Norwegian Lutheran Church of Canada. Mr. Blomlie, who arrived in Cereal recently with his wife and child, has accepted the Cereal Church call, which includes both Golden Valley and Sedalia. Many visiting pastors and laymen were present at the ordination.

GARDINER CRITICISES PARTY GOV.

A large and enthusiastic crowd turned out to hear Robert Gardiner the Farmers' Progressive candidate. Mrs. R. Clarke Fraser was the first speaker and in a most eloquent address she told of the women's part in politics. How the tariff affects the housewife and that on nearly every thing in the home from the door mat to the clothes line at the rear there was a duty to pay. She said the women should use their right to vote and help make Canada a better place to live.

The chairman, after a few words of introduction called on Mr. Robert Gardiner, the candidate. Although suffering from a sore throat, the speaker made a splendid speech and was applauded time after time as he touched on the questions affecting the farmers at the present time. He outlined the different planks in their platform.

After taking up some of the tariff questions he went on to point out how the different party governments had forgotten their election promises after getting into power during the last thirty years. He said that he hoped that with the recall the Farmer members would be obliged to stay by their election platforms. The meeting closed with three rousing cheers for the candidate.

SATURDAY'S HEAVY

GALE BRINGS HAIL;

DAMAGE IS LIGHT

The big windstorm of Saturday again brought hopes of moisture to farmers residing in the immediate vicinity of the town and dashed them again. Although the wind blew with great velocity, the dark lowering clouds refused to give up their contents, and the territory around the town was only granted a light wetting. For a few minutes the downpour was heavy, but it did not last long.

South of the town, however, there was heavy precipitation and Sunday the low spots in the roads were filled up, testifying to the extent of the fall. Hail is reported from some sections and six miles south of the town a big path was cut through several grain fields. The damage, however, will not be extensive.

MRS R. R. DUNN IS

CARD CLUB WINNER

The Ladies' Card Club met at the home of Mrs. J. R. Black Tuesday; June 7. Mrs. R. R. Dunn with the greatest number of points (154) won the prize—a pair of bath towels.

The next meeting of the club will be held at the home of Mrs. Hinds on Tuesday, June 14.

LIKE LIL' OL' N'YORK

Lawrence Jones of the Union Bank staff here, returned from Sunnyside where he was relieving one of the members there. After Sunnyside, he says, Chinook looks like Broadway.

Charlie Niff made a visit to his farm last week, and was pleased with the progress the crop is making. He claims that any well summer-fallowled early is sure to produce good results.

Mr. Hawkshaw who owned the harness shop here, and is now living at Wayne, is spending a few days in Chinook.

Personalities

Mr. M. L. Chapman accompanied by Mrs. Chapman has returned from a tour of Banff and Carstairs. Mr. Chapman was delegate from Crocus Lodge to the meeting of the Grand Lodge at Banff.

Mr. T. J. Jackson of Wayne, arrived in town last week to take a position in Isbister's store.

Mrs. Gillette, residing near Chinook, has returned from Calgary where she received medical treatment. She is much improved in health.

The U. G. G. elevator close from July 2-14, but should you want to take out hail insurance call and see me as I don't propose to leave town. C.W. Rideout.

The father of Mrs. R. J. Hogg of Kimmunity arrived in these parts last week from Ontario. Mr. Hogg will spend the summer in the west.

Father Bolan paid his regular visit to Chinook Sunday, holding services in the auditorium in the morning. There was a goodly attendance of local and district people.

Fraternal greetings, Friend Pettigrew. "Thanks for dem kind words" as our much lamented Fourth-Estate McCann would have said.

The Service Garage is selling plow casings 30 by 3 1-2 at 16.50 Non-Skids at 19.50 and Nobby Treads at 20.00. Other sizes of tires and tubes at proportionate prices.

The old swimmin' hole at the creek was a favorite spot on Sunday and many of our local boys partook of a plunge in the cooling depths. The editor was there but he hesitated at taking a dip owing to the alleged verocity of the frogs.

Cereal is planning a big time at the Sports Day Friday, June 24. They are making great preparations to entertain Chinook fans and the big program offered is a guarantee of a good time.

MOTOR GYPSIES HERE

Several parties from Saskatoon and other prairie points passed through Chinook over the week-end on their way to Banff. This is the advance contingent of auto caravans. Last year a large number of prairie families making the trip by motor.

Stop the Wasted Effort

Compared with most countries, Canada has been free from serious industrial disturbances resulting in strikes and lockouts. In this respect, indeed, the Dominion has been most fortunate, and it is not only a matter for national congratulation, but it speaks well for the saneness, common sense and general goodwill prevailing in this country, and an indication of the fair-mindedness of both employer and employee.

Recently, however, the printers of Regina went on strike to enforce compliance with certain demands made by them and which the employing printers felt constrained to refuse to grant in view of present business conditions and the steady decrease in living costs now taking place. Among the demands made by the journeymen printers was that a 44-hour week should be adopted but that the old scale of pay for 48 hours work should be continued. Other demands were for the adoption of certain restrictive shop rules which would have the effect of decreasing production.

One such rule was a further extension of a very vicious rule already in force—a rule which, while not benefitting the worker, imposes a burden of expense, not on the employers, but on the general public. It is a rule which makes a demand for the doing of positive and absolutely waste work. To explain: If a merchant inserts an advertisement in a paper and at the same time orders, say 500 or 1,000 copies run off as a poster, the Union rules prohibit the use of the same type for the double purpose. In other words, the identical job has to be set up in type twice, whereas once would, and should, suffice. This double cost is entailed, and the public have to pay for it. The Union is laboring under the crazy delusion that they are thereby creating work for material and providing employment for a larger number of men.

They forget that as the workers constitute the great bulk of the buying public they themselves are forced to pay for this waste.

As a matter of fact they are not creating more work and providing more employment; indeed experience has proven they are restricting both work and employment, because by reason of the increased and unnecessary cost of work there is less done.

Any process of labor which does not produce something of value is economic waste, pure and simple. The production of something for use is the only way to increase wealth and it is only through the increase of wealth that more employment can be provided. That is to say, wealth is production. There may be prospective wealth, enormous potential wealth, in the soil, in the mines, in the forests, and in many latent forms, but such wealth is not worth so much as a brass farthing to the people of the world until labor is brought to bear and this natural wealth is converted into the things men require. And if men's energies are devoted to work, which produces nothing they need, which is work merely to make work and serves no good purpose, then the sources of wealth are not increased but decreased. The whole world suffers, but most of all the workers themselves.

The workers of the world need to learn the lesson that the first requisite for the payment of the good wages they demand, and have a right to receive, is that the employers make enough money to be able to pay good wages. Wealth, let it be repeated, cannot be distributed until it is created, and whatever interferes with the creation of wealth interferes with the distribution of wealth in wages as well as in profits. When Union rules interfere with the creation of wealth they interfere with the welfare of labor as much as they interfere with the welfare of capital.

As a matter of fact, they interfere with the welfare of labor a great deal more than they interfere with the welfare of capital, because about ninety per cent. of the wealth created is distributed in wages, and capital is well content with anything like ten per cent. of the wealth created.

It should, therefore, be the intelligent purpose of the labor unions to meet any depressed situation in business by increasing productivity and profits. Whenever labor, by restrictive rules, or capital by curtailing production, interferes with the material creation of wealth, it interferes with the material development of the race and with the common possession of the advantages of modern productivity as far as each restrictive act is operative.

There are, says an American writer, two fundamental facts to be recognized: First, that productivity is necessary for permanently high wages; and second, that high wages are essential to general prosperity. The less the productivity, the less there is to be distributed in profits and wages. That is reasonably obvious.

And since the vast majority of the people of this or any other country are wage-earners, and general prosperity depends upon the prosperity of the masses, it is equally obvious that only liberal wages will create general prosperity and the general purchasing power, which in turn, means the prosperity of every individual and of every individual business.

Therefore, let there be good wages paid for good work, and let good work—really productive work—be given good wages.

Testing Soil For Acidity

Has To Be Done Carefully To Be Reliable.

There are several simple tests for soil acidity used, but they are generally not reliable unless done very carefully.

The surest test of all is a plot test. Sow a strip of alfalfa and divide it into three plots.

On plot one—apply no lime. On plot two, apply one ton of lime per acre.

On plot three, apply two tons of lime per acre.

If alfalfa does well on all three plots, no lime is needed. If it fails or does poorly on one line plot but does well on the other two, lime is needed. If it does better on the plot receiving two tons per acre, a heavy application is needed. The most common forms of lime are finely ground limestone, slaked lime, or marl. The plots used may be small of lime will be needed to make the test.

A SMILE IN EVERY DOSE OF BABY'S OWN TABLETS

Baby's Own Tablets are a regular joy given to the little ones—they never fail to make the cross baby happy. When baby is cross and fretful the mother may be sure something is the matter, for it is not baby's nature to be cross unless he is ailing. Mothers, if your baby is cross, if he cries a great deal and needs your constant attention day and night, give him a dose of Baby's Own Tablets. They are a mild but thorough laxative which will quickly regulate the bowels and stomach and thus relieve constipation and indigestion, colds and simple fevers, and make baby happy—there surely is a smile in every dose of the Tablets. Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Men Leave for Goldfields

San Francisco Company Shipping Machinery From Edmonton.

Fifteen men have been engaged by the Dominion Trading and Transportation Company, and will leave for the company's gold claims on the Upper Peace River immediately. All of the machinery ordered by the company in San Francisco has arrived at Edmonton and is being assembled prior to being shipped north on one of the company's barges. The machinery consists of engines, hoisting engine, steam engine, centrifugal pump, two power boilers, and three thousand feet of steel cable.

Pain In The Loins Driven Out Quickly

That dragging, wearying sort of pain makes life a misery to many people. This pain is due to a possible inflammation of the adjacent tissue. Because every drop rubs in, because it penetrates so deeply, Nerviline gives a wonderful relief. More powerful because five times stronger, more penetrating—Nerviline strikes through soft tissue, more healing to pain. Nerviline Liniment should be always on hand. Sold everywhere in large 35 cent bottles.

English Spelling Must Be Used.

American forms of spelling have been barred from official documents in the High Court. The Federal Chief Justice has announced that he will not allow their introduction in the order of the spelling of the words "program" and "center" changed to "programme" and "centre." He remarked that English spelling was good enough for him.

Ask for Minard's and take no other

"Shock Me to Sleep"

A French electrician claims to have invented a machine which will produce sleep by means of an electric current from tiny batteries fixed on the wrist and instep. The current relaxes the nerves and quickly produces a sensation of physical ease, followed by slumber, even in the case of habitual sufferers from insomnia.

A Large Catch Of Halibut.

During the first two weeks of May, approximately one million eight hundred thousand pounds of halibut were caught on the fishing banks of British Columbia coast. Of this catch all but two hundred thousand pounds entered Prince Rupert.

MURINE Night and Morning. Have Clean, Healthy Eyes. Remove Irritation, Smarting, Burning, Itching, or any other eye trouble. Murine is a gentle, safe eye medicine. Write for Free Book, Murine to Use, to Dr. J. C. Lynch & Co., Toledo, Ohio.

To Use Meats Left Over

BY LORETTA C. LYNCH

An Acknowledged Expert in All Matters Pertaining to Household Management.

Time was when the family looked with horror upon the saving of yesterday's roast. Then we all began to hear of the art of camouflage. Presto! the housewife learned to camouflage yesterday's roast so that the family really believed they were getting a brand new dish.

Take your roast beef. If it has been served on Sunday, set the remnants aside to serve on Tuesday. Don't make the mistake of giving it to the family cold on Monday. If you have served it with potatoes on Sunday, reheat it cautiously in the top of a double boiler or in a pan set over hot water. This conserves the flavor and prevents the meat from becoming hard. Now make up a nicely seasoned spaghetti and tomato sauce.

Left-over roast beef may be made into a savory stew with onions and potatoes. To camouflage the stew, place it in a baking dish and cover with a tender piece of fat. Rub the top over with yolk of egg diluted with milk. This will give a beautiful brown, shiny crust when baked. Bake in individual dishes if you have them.

Lamb and veal left from yesterday's roast have delightful possibilities. Instead of bringing to the table a semirigid-looking plateful of cold sliced lamb, slice the lamb one-fourth-inch in thickness. Sprinkle it generously with drops of Worcestershire sauce. Cover and let stand a little while. Heat a little fat on the fry pan, and saute the lamb until heated through and a delicate brown. Serve with most any vegetable or carrots and peas.

Left-over veal should be sliced and freed from any unedible portion. The slices should be one-fourth inch or more. Dip each slice in flour, then into beaten egg and lastly into sifted dry bread crumbs or cracker crumbs. Fry in hot deep fat until a delicate brown. Serve with buttered noodles. A brown gravy or tomato sauce or white sauce may accompany these impromptu veal cutlets.

Similar cutlets may be made from roast pork. Indeed, so good are these that I once heard a visitor remark to a thrifty housewife that "these are quite the best pork tenderloins" he had eaten this year.

A suitable accompaniment to these mock pork tenderloins is creamed potatoes generously sprinkled with finely chopped parsley and accompanied in the way of dessert by large green baked apples.

The bone from a roast usually has some flavor left in it. And it should always be put into the soup kettle. A bone from a baked Virginia ham is a decided improvement to pea or bean or lentil soup.

A roast smoked ham has always seemed a good investment, even for a small family, because of the possibilities of its left-overs. Do you know that any of the restaurants specializing in breakfast dishes reheat in hot fat a slice of roast smoked ham and serve it with eggs?

And for the very last of any roast, there is always the hash bowl. Allow two parts of chopped cooked potatoes and a little grated onion to one part of the chopped meat. Moisten with milk or water, and, if needed, add a little melted fat. Turn the hash into greased baking dish and bake until brown. You will like this better than pan hash.

Catarrh

Catarrh is a local disease greatly influenced by constitutional conditions. Foul and Blood Purifier. By cleansing the blood and building up the system, HALL'S CATARRH MEDICINE restores normal conditions and allows Nature to do its work. All Druggists. Circles Free. F. J. Cheney & Co., Toledo, Ohio.

New Fuel Corporation In B.C.

The Canadian Western Fuel Company which operates the coal mines at Nanaimo, Vancouver Island, has been re-organized as a \$5,000,000 corporation, and will be known as the Western Fuel Corporation of Canada, Limited.

Minard's Liniment Lumberman's Friend.

Egg-Shaped Arctic Ship.

D. B. Macmillan, chief lieutenant of the Peary North Pole expedition, hopes to sail round Baffin's land in a 115-ton egg-shaped craft just launched in New York. The explorer hopes that, by reason of her shape, she will be lifted out of the water by ice pressure and carried along with the pack. She will burn whale oil as supplementary fuel.

Hamilton Woman Was Actually Afraid To Go Out On Streets Alone

"Tanlac has relieved me of my suffering and I just can't praise it enough," said Mrs. Margaret Beveridge, 305 Hughson St., North, Hamilton, Ont.

"For two years my appetite was very poor and I suffered a great deal from indigestion of gas on my stomach. I was also troubled with frequent attacks of dizziness and was actually afraid to go out or even get away from something to hold on to. One of these dizzy spells came on while I was calling on one of my grand children one day and I just fell right down on the lawn. Last spring, when I started taking Tanlac, I had

been confined to my bed for a month and was so weak I could not walk.

"Tanlac helped me from the very start, as I have not had a weak spell since I started taking it and I feel so good I can hardly realize that I am the same woman. The dizzy spells are gone, my appetite is fine and everything I eat agrees with me perfectly. I have recommended Tanlac to a number of my friends and, I am glad to say, it has benefited them all. I just wish I could tell everybody who suffers as I did what Tanlac did for me."

Tanlac is sold by leading druggists everywhere.

Champion Aviatrix Killed

Flying at Altitude of 1,000 Feet When Plane Gives Way.

Miss Laura Brownell, holder of the loop-the-loop record for women and one of the best known women pilots in the world, was killed at Mitchell Field, Mineola, N.Y.

Miss Brownell was flying at an altitude of about 1,000 feet when the accident happened. She had just completed one loop and was about to make a second, when something went wrong with the plane and it crashed to the ground.

Miss Brownell, whose home was in Cincinnati, was 23 years old. She established her loop-the-loop record on May 15 last when she executed 199 loops in an hour and twenty minutes. That same afternoon she piloted an airplane over a two mile straightaway course at the rate of 135 miles an hour.

The machine in which Miss Brownell was flying was equipped with a Curtis motor and was manufactured in Canada. It was of the so-called Canadian J.N. 4 type.

A colored preacher took some converts to a Louisiana river to baptize them. Seeing some alligators, one of them objected.

"Why, brother," urged the pastor, "can't you trust the Lord? He took care of Jonah, didn't he?"

"Ya-as, but a whale is different, he's got memory; but if one of dem gators was to swallow me, he'd let 'em go to sleep in the sun there an' forget all about me."

Increase in Immigration

Greatest Number Entering Canada Are From British Isles.

During the month of March, 1921, a total of 11,009 immigrants entered Canada, of whom 4,865 were British, 1,292 from the United States, and 4,852 from other countries. The total immigration for the fiscal year ending March 31st is 148,477-74,265 being from the British Isles, 48,059 from the United States and 26,153 from other countries. This is an increase of 27 per cent over the previous fiscal year.

An Oil for All Men.—The sailor, the fisherman, the lumberman, the outdoor laborer and all who are exposed to injury and the elements will find Dr. Thompson's Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago, and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicines and those taken on a journey.

Nurses May Get Land

Residents of Canada Who Served Overseas Are Eligible.

In the amendments to the Soldier Settlement Act adopted by the Canadian House of Commons is a clause declaring that nurses who were resident in Canada before the war and who served overseas shall be eligible to qualify for land settlement.

A Substitute.

Life in Mexico being rather monotonous since General Villa's retirement, the long extinct volcano at Colima has resumed action and is belching smoke and ashes like a regular Vesuvius.—Vancouver Province.

Our slogan for the coming year should be, "Buy Home." Add to your own and your neighbor's prosperity by keeping the money circulating in our own district.

MONTH OLD BABY HAD SKIN TROUBLE

On Face and Hands. Itched and Burned. Cuticura Heals.

"My baby was only a month old when her face and hands started to get red and scaly. The eczema started in the form of water blisters and itched and burned. She was so cross and fretful she could not sleep."

"This lasted nine months when I tried Cuticura Soap and Ointment, and used three boxes of Soap with two boxes of Ointment when she was healed." (Signed) Mrs. Oscar Pilon, Amherstburg, Ontario, May 7, 1918.

Cuticura Soap, Ointment and Talcum are all you need for all skin ills. Bathe with Soap, soothe with Ointment, dust with Talcum.

Soap 25c, Ointment 25c and 50c, Sold Everywhere. The Dominion Drug Co., Ltd., Montreal, Quebec, Canada. Write for Free Book, Cuticura Soap, Ointment and Talcum.

Ranch Brings Big Rental

\$1,000 For Ten Acres Does Not Include House.

What is believed to be the highest rental ever paid for a ranch property in the Creston Valley has been agreed upon for this year's hire of the Toronto ranch, which has been taken for one year at a rental of \$1,000 for ten acres. This does not include the use of the house. The place is planted entirely to trees and small fruits.

Children suffering from worms soon shed the symptoms. In any mother can detect the presence of these parasites by the writhings and fretting of the child. Until expelled and the system cleared of them, the child cannot regain its health. Miller's Worm Powders are prompt and efficient, not only for the eradication of worms, but also as a toner up for children that are run down in consequence.

Special Prize For Pure Bred Stock

Will Be Given at Canadian National Exhibition Next Year.

The Ontario Department of Agriculture is offering four prizes at the Canadian National Exhibition next year to the value of \$600 to demonstrate the superiority of the pure-bred sire in stock raising. The first of these prizes is in the dairy cattle class where prizes are offered for the best calf, yearling and two-year-old sire by a pure-bred bull; the cow may be any grade or scrub. Similar awards are offered in the beef class.

When poverty comes in at the door of an Eskimo house love doesn't fly out at the window. An Eskimo house has no windows.

The man who doesn't recognize the world's greatness or his own littleness is likely to be a cynic.

Spend your money at home, thereby helping your own town and local merchants.

Germany as a Peacemaker

Obedying Allied Demands Merely For Self Preservation.

Germany is paying her bills, not so much in obedience to the national conscience as in obedience to the elemental law of self-preservation. An Allied army has pitched its tents on the threshold of the Ruhr, the industrial heart of Germany—and if the debtor defaults, the Allied armies will close little time in taking over the industrial resources of the Ruhr. The Germans know this, and they would rather pay the reparations bill than face the alternative of a Germany without the Ruhr—Boston Transcript.

The good we do is an excellent antidote for the evil we think.

Don't Neglect Your Skin

Ladies—A few days' treatment with CARTER'S LITTLE LIVER PILLS will do more to clean up the skin than all the beauty treatments in creation. An imperfect complexion is caused by a sluggish liver. Millions of young and middle aged women take them for Biliousness, Dizziness, Sick Headache, Constipation, Indigestion, Pimples and Blemishes. They are the glory of Canada. Small Pill—Small Dose—Small Price.

ASPIRIN

"Bayer" is only Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacid of Salicylicacid.

Trials Of War Criminals Causes Great Dejection Among German Military

London.—Sir Ernest Pollock, the solicitor-general, replying in the House of Commons to a question by Horatio Bottomley, Liberal, as to whether Sir Ernest was satisfied with the results thus far of the trials of the war criminals in Leipzig, said it would be improper to make a statement at this time. He added, however: "Perhaps Mr. Bottomley might be glad to know that a sentence delivered in my presence caused great objection among the military part of Germany, and that the officers there certainly did not think it a small sentence to have one of their number sent to the ordinary prison in order to carry out a sentence of ten months among thieves and felons."

Referring to one of the accused who was charged with sinking a hospital ship and fled from Germany as soon as the list of accused men was published, the Solicitor-General said, every effort was being made to arrest the man and his property has been sequestered.

The German officer to whom Sir Ernest referred as having been sent to the ordinary prison was Sgt. Heyne, who was sentenced to ten months' imprisonment May 26 for ill-treating British soldiers who were prisoners of war in the prison camp in Herne, Westphalia.

Admiral Sims Stands By Statement

Sees Nothing Un-American in Speech About Sinn Fein.

London.—Rear-Admiral William S. Sims, U.S.N., is quoted by the Press Association as saying with regard to the speech he delivered on the Irish question: "I stand by all I said, every word of it. I shall not repudiate a single word, and I see nothing un-American in it."

Admiral Sims, who said he had not received the cablegram reported to have been sent him by Secretary of the Navy Denby, inquiring if the admiral was correctly quoted in the press reports of his speech, has arranged to have the cable message delivered to him as soon as it reaches London.

Speaking at a luncheon given by the English-speaking Union at London recently, Admiral Sims declared frankly with Sinn Fein propagandists in the United States. He was said to have declared that the persons he assailed were United States citizens "when they want money, but Sinn Feiners when on the platform," and added: "They are making war on America today."

Irrigation Project Begun.

Lethbridge.—Team work on the Lethbridge Northern Irrigation Dam project will be in full swing in a week and the big steam shovels will be moving dirt in a fortnight. Grant Smith and Company and McDonald, Limited, the contractors for the earth work, have sub-contracted for 1,500,000 feet with Noehra and Mannis, Calgary.

Strong Plea Is Made For Peace Of The World

President Harding Speaks of High Ideals of Canada and the United States, Following Address of Hon. N. W. Rowell.

Washington.—President Harding, delivering a commencement address at the American University here, found the subject of world peace occupying so prominent a place on the programme that he was prompted to depart from his prepared manuscript and declare for the preservation of peace by sovereign states without the interference of a world "superpower." The President's remarks followed an address by Hon. N. W. Rowell, of Canada, who suggested that the best contribution North America could make to civilization was "for men on this side of the water to stand behind the movement for peaceful settlement of international disputes."

"I do not think I could let the occasion pass," said the President, "without giving assent to many of the appropriate and appealing things just uttered by Mr. Rowell. I liked his expression that American and Canadian ideals are in common and when he spoke about the North American contribution to present day civilization and to the world, it occurred to me that the example of the two great people living side by side in peace, in

Saskatchewan Elections

Martin Government Is Returned By a Heavy Majority.

Regina.—The heaviest vote in the history of Saskatchewan was recorded in the recent provincial elections. More than 10,000 ballots were cast in the city of Regina alone. The announced result gives the Martin Government 41 seats, Independents 11, Conservatives 2, Labor 1, and doubtful seats 5.

The following Government candidates were elected:

Hon. W. M. Martin, Regina; Col. J. A. Cross, Regina; R. Douglas, Canington; W. G. Robinson, Francis; E. R. Ketcheson, Hanley; W. J. Vanclie, Lumsden; P. L. Hyde, Maple Creek; G. B. Johnston, Melfort; J. A. Smith, Pheasant Hills; W. J. Patterson, Pipestone; J. A. Wilson, Roseburg; E. S. Cline, Shellbrook; Hon. C. M. Hamilton, Weyburn; J. R. Taylor, Kinistino; T. H. Garry, Yorkton; T. E. Gamble, Bengough; W. H. Dodds, Canora; J. A. Dowd, Kerrobert; Mrs. S. K. Ramsland, Pelly; M. Cameron, Saskatchewan County; Hon. A. P. McNab, Saskatoon; J. M. Parker, Touchwood; J. Hogan, Vonda; A. J. Hindle, Willow Bunch; A. B. Gennell, Turfville.

Independents elected: H. Turner, Saskatoon City; D. E. McDonald, S. Qu'Appelle; W. J. F. Warren, Thunder Creek; W. H. McKinnon, Wadena; W. H. Harvey, Kindersley; J. L. Salkeld, Moosomin; Thos. Raymond, Biggar; D. J. Sykes, Swift Current; S. Bingham, Wilkie; G. Bennett, Wolsley; Geo. W. Robertson, Wynyard.

Conservatives elected: J. P. Pascoe, Moose Jaw City; J. P. Gordon, Souris.

W. G. Baker, Moose Jaw City, was the only Labor candidate returned. The doubtful constituencies are Redberry, Cut Knife, Elrose, Gravelbourg and Happyland.

Proposed Imperial Air Mail Service

Scheme Would Give Britain Fast Service to Colonies.

London.—A scheme for an imperial air service is suggested to the Government by A. H. Ashbolt, agent-general for Tasmania, with a view to the utilization of surplus airships and plants.

His proposal is that a company be formed with a large capital, one-half of which would be taken up by the Governments of India, South Africa, Australia, New Zealand and the Malay States, and one-half by public subscription. The plan is that a great air mail service should be organized which would bring Great Britain within five days distance of India and South Africa, and within 10 days of Australia.

Cars at Naples.

Naples.—Enrico Caruso, noted opera singer, has arrived here on the steamship President Wilson.

Western Crop Conditions Continue Favorable

Winnipeg.—There has been another week of almost perfect weather conditions with rains very general over the whole of the three provinces. Insect damage in the shape of cutworms and grasshoppers is still spoken of in several points. The cutworm damage is confined largely to Alberta with one small outbreak reported from Western Saskatchewan. As regards the grasshopper menace, all provinces speak of the pests, but the same reports say that all interested parties are on the job of combating them.

Mutiny of Chinese Troops

Attempt to Check Opium Smuggling Caused Uprising.

Hankow, China.—Mutinous Chinese troops have looted and partially burned Ichang, a treaty port 130 miles northeast of here, for the second time in six months, according to official reports reaching Hankow.

British, United States and Japanese gunboats have been despatched to Ichang.

Consular reports indicate that attempts to check troops in repeated opium smuggling operations caused the uprising.

Casualties have not been determined, but are expected to exceed those of the November mutiny at Ichang when sixty were killed and two million dollars in property destroyed.

Chemist Says He Can Make Gold

Has Also Solved Problem of Making Other Metals.

New York.—Dr. Charles Benson Davis, of this city, in a paper which he has just submitted to Engineering Foundation, claims to have solved the problem of manufacturing gold. He declares he has already successfully demonstrated the possibility of making gold and other chemical elements, such as silver, platinum and copper, by transmutation—of a common element. He has shown samples of the metals he claims to have made to members of the Engineering Foundation and has requested that body to investigate his claims and his methods.

To Foster Cotton Growing

Grant For Industry Within the Empire Is To Be Increased.

Manchester, Eng.—Winston Spencer Churchill, colonial secretary, addressing the British Cotton-Growing Association, announced that it was the Government's intention to devote £1,000,000 to foster cotton growing in the British Empire instead of £500,000 yearly for five years, as formerly proposed.

Mr. Churchill said that although much had been achieved in cotton growing in the Empire, it little compared with what might be done. Referring to Egyptian cotton, he declared it to be superior in quality and only second in quantity to that obtained from the United States.

Immigrants Barred

German, Austrian and Turk Tourists Can Enter Canada.

Ottawa.—The Department of Immigration and Colonization says that tourists do not require passports as a condition of entry from Canada to the U.S. or for the return journey.

Immigrants coming to Canada to work or reside from Germany, Austria, Hungary, Bulgaria or Turkey, are debarred. The ban does not apply to persons coming to Canada from these countries when belonging to the non-immigrant classes.

Silver Strike in B.C.

Prince Rupert, B.C.—An important silver strike is reported on the "Gabriel Group" in the Skeena Valley, up the Copper River. The property is owned by D. Buchanan, a Montana man.

Germany May Join League.

Geneva.—The assembly of the union of the League of Nations Association, adopted a resolution in favor of the admission of Germany to the League of Nations.

Oppose Lifting Embargo.

London.—More Irish farming evidence was given before the cattle embargo commission, all of which opposed the removal of the embargo.

Working For Better Dairying

Percy E. Reed, Dairy Commissioner for Saskatchewan.

Indians Sell Standing Timber

Redskins Will Become Wealthy Through Big Deal.

Superior, Wis.—Contracts with Chippewa Indians of the Net Lake, Minn., reservation have been signed by the Northwestern Paper Company of Colquet, Minn., whereby the company will pay them approximately \$500,000 for from 25,000,000 to 30,000,000 feet of sawed timber and pulpwood in the vicinity of Net Lake.

The deal marks the sale of the last large tract of standing timber in the Lake Superior district owned by Indians. Some of the Indians will receive as high as \$10-acre allotment for timber on an 80-acre allotment.

Many owners, many of the Redskins have become wealthy.

The Coal Shortage in Britain

To Meet Situation National Kitchen Sold Hot Water to the Working People.

Hull, Eng.—The shortage of coal has been so serious here during the strike of miners that the people were unable to obtain hot water. To meet this situation, the National Kitchen, which happened to have a supply of coal, sold hot water to the working people at one-half penny a bucket.

The shortage of coal also produced a shortage of ice as it handicapped the artificial ice plants. To obviate this, trailers were sent to Holland to bring coal which they exchanged here for ice.

Retaliatory Duty On Lumber.

Washington.—The ways and means committee of the House decided to include in the "Emergency Tariff Bill" a duty on lumber similar to that imposed by Canada upon lumber sent to the Dominion from the United States. This is 25 per cent. The proposal was bitterly opposed by several of the committee members and it was adopted only after a lengthy fight.

Prevent Confiscation In Russia.

Riga.—A Moscow despatch announces that a decree is being prepared to prevent further confiscation of money from private persons, except by court trial. Another decree provides that anyone arrested must be given the reason for this within 24 hours, and if a member of a trade union, may be released if a union vouchers for him.

Admiral Sims' London Speech.

Washington.—Secretary of the Navy Denby has instructed Rear-Admiral Sims to advise the Navy Department immediately by cable as to whether he was correctly quoted in press accounts of an address he made to the English-speaking Union at a luncheon in London, June 7.

Would Unseat De Valera

London.—Practical action has been instituted, says the Belfast correspondent of the Evening News with the view to making void the election of Eamonn de Valera, the Irish Republican leader, as a member of the new Ulster Parliament on the ground that he is an alien. A leading firm of Belfast lawyers, according to the correspondent, has been engaged to investigate De Valera's antecedents and already steps are afoot for collection of evidence in the United States and elsewhere, especially from De Valera's speeches on the subject.

True Bear Stories

By O-GE-MAS-ES (Little Clerk).

(Copyrighted)

(Continued)

Well he realized that if this shot was not a fatal one his chances were slim, still he went on with dauntless courage, though as he told me his heart beat a little faster than usual. At last he noted a huge dead-spruce tree fallen across the track, and stopping and studying the situation he felt convinced that Mr. Bear was either concealed behind this or very close to it. Creeping up to within a few feet of the tree, full cocking his smooth bore gun, he broke a dry stick sharply and on the instant over the tree came the grizzly, mane bristling like an angry dog, mouth wide open with huge fangs exposed, growling savagely he charged right at Robert, he, waiting until the bear was so close the powder burnt his flesh, shot him right through the brain and killed him instantly. Robert camped beside his victim that night and carefully skinned the bear, so many of his kind the skin was in poor shape, scars and cuts from many fights, also traces of several old bullet wounds. He was very thin and, as Robert quaintly expressed himself, mightily hard chewing.

The inroad of the grizzly into our country caused much excitement amongst the Indians as their huge claws are much coveted by the young warriors as signs of their prowess in hunting. Old Kinistino, however, was the only one who had a necklace of these and it was exciting enough to hear him tell of his fights with them when on buffalo hunting and horse stealing excursions to the Great Plains.

In my own case there was food for thought as most of the winter on trips to Indians I was sleeping out and invariably alone, hardly ever carried fire arms and would certes have been a easy prey for a wandering grizzly.

It was the fifth night out after a trip on my honeymoon journey, with a game little mare named Nellie who was wise beyond description; I had a flat sled with a bulky load of furs; the weather was intensely cold, in February, I think, and I had selected a camping place, somewhat earlier than usual; this in the middle of a small green poplar bluff, with a bunch of dry trees in the center; near at hand was a dry hay-swamp well sheltered by scrub and timber and in this I tethered my pony to a green pole above the side of a fence rail, notching the centre slightly so that the tie would not slip; she could drag the swamp and keep herself warm by pawing the snow for the frozen grass underneath, but if she attempted to leave the swamp the pole would at once catch the trees.

About an hour's hard work gave me a camp; a nice little clearing with two large piles of wood on each side of the fire, wood cut to about five foot lengths and you can then stretch your length and enjoy the heat treat and back, for in spite of severe cold you are bound to sweat more or less while travelling. Unloading the sleds I piled the bales at the back, and this, with the snow shovelled (by snow-shoe), made a break from any wind on three sides while the front was filled with a glorious fire. After a good supper and a final trip to my pony in which the tether was carefully inspected, also a quart of oats placed on the ground for her feed, I wished her goodnight, remarking at the time, "Well, Nellie, we have about forty-five miles to make tomorrow and we must start early if we intend reaching home." I think I will get up at half past two," she gave me a wise little nicker and back to camp I went. My large fire had burnt down to glowing coals so I at once made up my bed and a description of this may interest readers.

The snow had been well cleaned off and on the ground I spread fine willows (there being no spruce), over this came a huge armful of hay cut with my sheath knife in the swamp, and there is nothing warmer to sleep on; on this my deer skin, killed late with the winter hair on and only scraped, not tanned as this it would be too soft and one would feel the lumps below; this is laid tail up so that you lay against the hair and do not slip off. For covering a 3/2 point Hudsons Bay blanket, always white, as they are so much warmer than colored blankets, over this my rabbit skin robe and over all my duck sled wrapper which protects the bedding from any stray sparks. The fire goes out, but no matter how low the thermometer goes down, and it must have been 40 below zero that night, one can sleep warm and comfortable.

Covering up my head as is customary and necessary when exposed to such low temperatures I was soon fast asleep, and after some hours sound repose I was awakened by a tug at my bedding. Was I dreaming? No, I could both feel and hear

the animal moving. My thoughts flew back to the grizzly bear, the only weapon I had was a light axe and for the life of me I could not recollect just where I had placed this "over night." Well, I was up against it and could either feel or imagine the hot breath of the brute, so summoning up all my resolution I threw the bedding back and here was Nellie's wise little head within a foot of my own. Such a relief. Looking at my watch it was twenty minutes to three, so I at once rose with the blankets gracefully draped round me and made on a huge fire. My, but the little mare did enjoy it as I stripped her blanket off, it being covered with frost, and she, carefully stepping, would turn first one side and then the other to the heat. I found on examination that she was fast tethered to the pole and wondered how she could have dragged it in through the narrow gap. I made a mistake, and on looking at the tracks I decided that when the pole would catch she had nosed it straight again and continued doing this until her line allowed her to reach my camp. At breakfast, which I always shared with her, she brought very fond of both bread and sugar. I made a promise, and it was that I would never part with her, and when she got beyond work she would be pensioned off. This is due time happened and she passed a serene old age surrounded by her off-spring, some of whom can be seen driving into Melfort today, handsome enough, but I doubt if any could show the same lion like courage and hardiness which little Nellie proved on many a long trip.

African Demands British Justice

Chief Asks Privy Council For Ownership Rights to Land.

London.—A West African chief attended in state, the meeting of the Privy Council, and asserted his rights of ownership to 250 acres of land in Lagos, taken by the Colonial Government there for public purposes. His private secretary carried a staff sent by the Prince of Wales to the appellant. On the staff was an inscription certifying that it had been presented to the prince's grandfather by the British Government as a token of appreciation of assistance rendered the British in suppressing the slave trade and protecting missionaries.

The appeal of the chief was adjourned.

German Bank Prosperous

Large Financial Institution of Berlin Increases Capital.

Berlin.—Announcement of a capital increase of 90,000,000 marks is made by the Dresdner Bank, one of Greater Berlin's largest financial institutions. This makes the capital of the bank 330,000,000 marks. The bank, endorsed the \$200,000,000 worth of treasury notes recently turned over to the allied reparations commission.

Prices Must Come Down.

New York.—Prices in the United States must either come down or those in Europe must go up to meet them if the economic situation in this country is to be settled, said Shelton, Australian commissioner to the U.S. declared at a farewell dinner given him by a session of foreign press correspondents. Until this adjustment has taken place, he said, there could be no resumption of the enormous prosperity the U.S. has enjoyed.

Anti-Cigarette Law In Utah.

Salt Lake City, Utah.—Utah's anti-cigarette law, passed by the last Legislature, is now effective. Since the shelves of tobacco stores were cleared of cigarettes, and the law is now in effect, the newspapers of cigarettes. The law provides against smoking in public places, which are defined and prohibits the giving away, sale, exchange or barter of cigarettes.

Devonshire Leaves In July.

Ottawa.—It has been officially announced from Government House, that their Excellencies, the Duke and Duchess of Devonshire will sail from Quebec for England on July 19, on the Empress of France.

Kansas Harvests Wheat.

Pratt, Kan.—Wheat harvesting will begin in some sections of Pratt county the latter part of this week and will be in full swing by the middle of next week.

BASED ON RETURNS
MADE BY FARMERS

For the fourth successive year since 1918, the Dominion Bureau of Statistics and Provincial Departments of Agriculture, will make next June their annual enumeration throughout Canada of the areas sown to field crops and of farm live stock. This enumeration will be effective,

as before, by cardboard schedules distributed to individual farmers. When filled up and returned, the cards will be transmitted to the Dominion Bureau of Statistics at Ottawa for compilation into totals by adding machinery, except in Ontario and British Columbia, where compilation will be undertaken by the provincial departments.

The collection of these statistics represents a national agricultural stock-taking, which is as important in the interests of farmers as are conditions of

FARMING IN S. AFRICA

Farmers in South Africa meet with nearly as many difficulties as the farmers in this country have to overcome, according to a description of farming conditions there, by a writer in a South African Journal, the Johannesburg Times. Drought is apparently the chief difficulty in South Africa as he describes the farmer as being fortunate who gets three fair years out of five, and says that even in years of heavy production the farmer fails to reap much profit because of the drop in prices. In fact the writer claims that it is only in dry seasons when prices are high, that those few farmers who were fortunate enough to escape the drought, and have crops to sell are able to make any money. "The men who have made money out of their real farming operations," he says, "are few and far between."

This rather dismal picture of general farming operations, is even more true of the cattle ranches, says the writer of the article, because, though not so dependent upon slight variations in temperature and rainfall; yet he is in the unfortunate position that he has only a short period of the year in which to sell his cattle. In South Africa grazing cattle, to be sold at their best, must be marketed from March to July. The result of this rush of cattle to the market is that (just as in this country, from September to December) values fall rapidly and the cattle are brought at low prices, slaughtered and held in cold storage until the market can be found for them.

WORLD CAMPAIGN FOR
MAMMOTH MEMBERSHIP
OPENED HERE SUNDAY

The first membership campaign to be launched by the Canadian Red Cross Society on a large scale opened in Alberta Tuesday and will last until Saturday next. It is being launched in the firm belief that Canadians as a body will respond to the appeal, and will join in the work being carried on by the society.

The drive will be made in accordance with the resolution adopted by the first general council of the League of Red Cross Societies held in Geneva, Switzerland, May 5, 1919. The resolution requested each of the national societies to conduct an annual campaign for members.

other industries to those whose livelihood depends upon them. The trustworthiness and value of the statistics depend upon the co-operation of farmers in filling up and returning the simple schedule issued to them, because the greater number of returns, the surer will be the estimates based thereon. It is the aim of the Dominion and provincial statistic authorities to secure ultimately an annual return from every individual farmer in the Dominion.

In filling up the forms, farmers are not only advancing their own individual interests, but also those of the greatest industry in Canada. From a national and provincial standpoint, food merchants, transport companies, bankers, and all business men are keenly interested in obtaining the earliest possible information as to the quantity and value of the products of the soil. Agricultural operations depend largely upon credit, and credit cannot be given without security. The principal security of bankers in financing agricultural clients is the produce of the soil, early and accurate information as to which is

Youngstown and
Chinook Split Big
Holiday Matches

Held from last week's ADVANCE

Two rousing games of baseball were witnessed by goodly crowds on the holiday when the Trail Rangers and Tuxis Boys, representative of the juvenile strength of Chinook and Youngstown met in combat on the school campus. Both teams measured up well both at bat and on the field and the fans were loud in their appreciation at the good work put up by the youngsters. Some fairly heavy slugging featured both games, while the field work of both organizations was well up to standard.

In a hotly contested game the Chinook Trail Rangers wrested the honors from their Youngstown brethren by the decisive score of 13 to 7. The boys from the south, however, staged a hot comeback in the Tuxis fixture when they walloped the home team by a score of 7 to 2. Return matches at Youngstown are planned for the near future.

Marconi Visualizes Results Of Wireless Control On Future Naval Warfare

"The country with the most efficient directional wireless is bound to win the next war. The rapidity with which experiments are succeeding in England in this phase of wireless control will surely result in a revolution in modern ideas of naval warfare."

"I had in mind a gigantic clash between two manless navies in mid-ocean, directed by unseen hands on the land or in the air."

"The most efficiently directed navy is bound to drive the weaker navy from the seas and then the seaboard and bases of the latter will be entirely at the mercy of the strongest."

Thus Senator Guglielmo Marconi, who has just returned from a two months cruise in the Mediterranean on his yacht Elettra, summed up the possibilities of this newest arm of the marvellous wireless achievements.

"The possibilities along the line are so great that even I am afraid to say too much. No one knows its limit. Already scientists stand aghast at what the future may bring. Experiments in England in directional wireless are already successful in the embryonic stages, and are being so improved and becoming so much more efficient that daily there are new surprises."

"I understand that America is so impressed that the result of the summer naval manoeuvres will be devoted to furthering its knowledge of this most important development by using obsolete dreadnoughts directed by wireless as targets for attacks from the air."

"It can readily be seen that if one ship can be controlled in this manner the future manless navies are simply a matter of time and development. If a war ever comes when this is perfected it will be more terrible than ever."

Marconi visualized monster manless battleships patrolling seas, controlled by master admirals speeding through space four or five thousand feet in the air. His description of what would happen if two of these navies of equal size should meet, automatically discharging their batteries of torpedoes, outdoes Jules Verne and H. G. Wells.

Now that the position of a ship even two or three thousand miles distant is easily ascertainable by land wireless stations, Marconi explained the possible use of a gigantic super-torpedo, bigger than the largest submarine, with a radius of three thousand miles, and containing tons of explosive.

"It will be easy to discharge this monster weapon from land and direct it through the ocean until a target is found. It would be worth while wasting many of these if one succeeded in destroying an enemy dreadnought," said Senator Marconi. The inventor characterized the whole field of wireless research as a fertile field for horrible development, saying:

"At every stage of progress we are finding new and unexpected possibilities, such, for instance, as the firing of batteries of guns on land and sea by wireless waves."

"Of course, every evil possibility directs counter-measures and the mysterious electric force in the air may be harnessed by defensive as well as offensive purposes in war time."

More Canteen Money For Dominion

Canada's Share Said to Be About Two Million.

The report of the British parliamentary commission which investigated the disposition of army canteen funds has been completed and now is being reviewed by the Army Council.

Although no forecast is forthcoming, it is probable that Canada, which has already received over a million dollars from the funds, will obtain a further sum in the neighborhood of twice that amount.

Germany Cannot Enter League

France and Britain Are Both Opposed To Idea.

"There is not the slightest possibility of Germany being admitted to the League of Nations in the near future—certainly not as things stand at present," declared an official of the British Foreign Office. France, the British official pointed out, is unalterably opposed to the idea, and Great Britain has not the slightest inclination to depart from the French view.

Prominent Railway Official

Charles Murphy, General Manager, Canadian Pacific Railway Company, Western Lines.

Blind Soldier May Become Famous

Work of Untrained Artist Wins Place In Paris Salon.

Exhibit No. 3514 at the salon of French artists in the Grand Palais is a small statue of a French poilu leaning on his rifle. It was submitted by one Bernard Fedot, with thousands of other statues, in competition for a place in the salon and the award to Fedot was made by judges who had no knowledge of the sculptor.

It now becomes known that Bernard Fedot is an ex-poilu who was blinded by a German shell which tore away half his face. Invalided back to his home in Lachapelle Villedieu, in the department of Yonne, a peasant, who had had no dealings with earth before except with a spade, set to work without a teacher to learn to model figures, using earth from the garden he used to tend when he could see, and after three years he exhibits in the National salon.

The announcement has drawn great attention to the statue, and before long it is probable that Fedot will find himself the possessor of ample means to carry on his work.

A Northern Niagara

Few Have Heard of Twin Falls On Hay River.

With the rush into the hinterland of Northern Canada, due to the oil finds, beauty spots of the Far North are being discovered and exploited. A recent issue of The Edmonton Journal, tells of twin falls on the Hay River, just beyond the top of Alberta, which rival Niagara in beauty and magnificence. Few people in Canada have ever heard of these falls. They were first seen by Bishop Pompilus in 1872, who named them in honor of the then Princess of Wales, Alexandra Falls.

The time will not be many years distant, with better transportation facilities, when the northern hinterland will be one of the chief tourist attractions on the continent.

Successful British Tractors

Show Remarkable Hauling Power In Trial In Far East.

The merits of the British-made tractor for agricultural purposes were conclusively demonstrated during a trial on a rubber estate in the Far East. All conditions were against success. The soil consisted of heavy sand or of sand mixed with clay, and rain had fallen heavily prior to the trial. Nevertheless, the driver was able to turn and manoeuvre with the greatest ease. Further, the tractor showed its hauling powers by pulling two large trucks, weighing about 11 tons, up hill.

Both Ways.

If Empire Day does nothing else than teach children to reverence the wider ideals of a great past, it will have accomplished much for the well-being of the coming Canada. There is reason to believe it will do more than that by stimulating the youth of the land to nobler action.—Winnipeg Free Press.

Easier to Smile Than Frown.

Philosophy and science are combined in a notice stuck on the notice board of a London, Eng., church which runs: It is easier to smile than to frown! To frown you use 64 muscles but only 33 to smile!

Canadian Sugar For British.

Five million pounds of refined sugar were despatched from St. John, New Brunswick, recently, with a view to follow to British ports.

Farmer Has Train To Feed Hogs

California Rancher Has Developed Great Labor-Saving Scheme.

F. E. Lewis, owner of the Diamond Bar Ranch in Los Angeles county, has developed a scheme whereby he can feed 5,000 hogs in sixty minutes. Two men are required thus to do the work of many men without the aid of machinery. Mr. Lewis has adapted a broken down railroad system to the uses of his 8,000-acre ranch on which he raises many thousands of hogs and cattle. He purchased an engine and flat cars when the railroad went out of business, and from these he has fashioned his mechanical feeding plant.

He laid a standard gauge roadbed alongside his pens and through his fields, from the rails the railroad didn't need any more. Then he contrived tank cars to carry the feed for the hogs, and a hose running to the troughs in the pens. A system of paddles in motion keeps the feed stirred so that some of the hogs don't get the fat while others are getting the lean.

The engine is run alongside the pens at the rate of one mile an hour and the feed put into the troughs without stopping the train. A superannuated railroad engineer runs the old locomotive and another man operates the feeding apparatus.

Mr. Lewis has a different scheme for feeding cattle. Instead of dumping the feed for them he merely fills up his flat cars with hay and changed bits of hay, and then the men "cut out" into fields to stand there until the cattle empty them. Then they are returned to the silos and the hay bays and refilled, then out they go again, hauled by the decrepit locomotive, to stand in the field for the accommodation of the hungry cattle.

Will Not Enforce Dehorning Penalties

Calgary Livestock Exchange Decides Against Charge.

Calgary livestock exchange will not follow the example of the Toronto livestock exchange in making dehorning of \$300 a head on horned cattle. This was decided at a meeting recently, the local exchange agreeing that it would be better to give the stock raisers the full payment, and rely on educational policy to bring about dehorning.

The Toronto exchange imposes the dehorning after January 1 next year.

Copper Throne in Jungle

Believed to Be Queen Victoria's Gift To Ashanti Chieftain.

A massive chair made of copper, which natives believe was given by the late Queen Victoria to an Ashanti chieftain and used by him as a throne, has been discovered in the midst of a jungle far from human habitation in the Gold Coast Colony, West Africa. According to native legend it was placed over the grave of the chieftain who had occupied it when alive. The natives believe that the chieftain still sits upon his old throne in spirit at certain times, and for this reason they have been asked to move the chair, they declare, has now rooted itself in the ground.

Fasting For Longevity

Long Lived Family Had Habit of Going Without Food.

As a means to longevity fasting for two or three days at a time was suggested at an inquest at Edmonton (a suburb of London), on George Harding, aged 85. A step-daughter said he came of a long lived family. For some years he had been in the habit of not taking food for two or three days at a time, and he had told her that her relatives had followed this course. One of them had reached the age of 103, while her grandmother attained 100.

Medical evidence showed death to be due to heart disease. Every other organ of the body was perfectly healthy. A verdict of death from natural causes was returned.

Paying a High Price.

France is to offer a hundred million dollars in the United States to pay off maturing debts and provide money for the purchase of foodstuffs and raw materials. The rate of interest promised is 7 1/2 per cent, and as the issue will be made at the rate of \$95 per \$100, the return will be about 8 per cent. France must use the money when it proposes such terms.—Winnipeg Free Press.

Sad Part Of It.

"Worry kills a good many people, but not the kind it ought to kill—that kind, don't worry," is a moralizing item in the Albany Capital.

Chinese Government Forbids German Firms To Carry On Business

Irrigationists to Meet

Fifteenth Annual Convention of Western Canada Irrigation Association.

Some of the leading agricultural and irrigation authorities on the continent will address the Fifteenth Annual Convention of the Western Canada Irrigation Association at Vernon, British Columbia, July 27th, 28th, 29th and 30th. They include the Hon. S. F. Tomin, Minister of Agriculture for the Dominion Government; the Hon. Duncan Marshall, Minister of Agriculture for Alberta; the Hon. T. D. Pardo, Minister of Lands, British Columbia; Doctor John A. Wildsoe, President of the University of Utah, and one of the leading authorities in the United States on practical irrigation farming; Doctor F. A. Wyzatt, Professor of Soils at the University of Alberta; L. C. Charlesworth, Chairman of the Alberta Irrigation Council; R. H. Helmer, Superintendent of the Dominion Experimental Farm at Summerland, British Columbia; C. J. Lewis, of Oregon; Lionel Stevenson, Superintendent of the Dominion Experimental Farm at Sydney, Vancouver Island; A. S. Dawson, Chief Engineer of the Canadian Pacific Railway's irrigation systems; and Doctor Samuel Fortier, Chief of the Irrigation Division of the United States Department of Agriculture.

Subjects of the greatest importance to irrigators will be discussed, including Excessive Irrigation and its Dangers, on which Doctor John A. Wildsoe will give an address. Doctor Wildsoe says that this is a question to which they have given considerable attention during the last few years in Utah, and they have arrived at very satisfactory conclusions as to the right amount of water to be used with the various crops to get the best results from irrigation.

Lionel Stevenson, B.S.A., who has had considerable experience with overhead irrigation on the Dominion Experimental Farm at Sydney, British Columbia, will give a talk on this subject. The Action of Water on Soils will be the subject of Doctor Wyzatt's address. This should be a very instructive address for Doctor Wyzatt is one of the foremost authorities on soils in the country, and he has the knack of presenting his subject in a very interesting manner.

The British Museum possesses a "Lady of Egypt" with a history. Mrs. Amen-Ra, more properly called "The Lady of the College of Amen-Ra," is the famous "unlucky mummy" in the museum. It is said that whoever looks on her will be visited by misfortune and often meet speedy death. Superstitious persons, carefully avoiding the Egyptian rooms at the museum, tell many stories of the misfortunes that have come upon those who looked into the mummy's face. During the winter the gallery where the mummy is placed was closed to the public and was used only by the regular of Friendly Societies. Now the public is again admitted and many during Londoners have gone there for the thrill of risking the ancient lady's magic.

Mummy Brings Bad Luck

Whoever Looks at "Lady of Egypt" Invites Trouble.

The British Museum possesses a "Lady of Egypt" with a history. Mrs. Amen-Ra, more properly called "The Lady of the College of Amen-Ra," is the famous "unlucky mummy" in the museum. It is said that whoever looks on her will be visited by misfortune and often meet speedy death. Superstitious persons, carefully avoiding the Egyptian rooms at the museum, tell many stories of the misfortunes that have come upon those who looked into the mummy's face. During the winter the gallery where the mummy is placed was closed to the public and was used only by the regular of Friendly Societies. Now the public is again admitted and many during Londoners have gone there for the thrill of risking the ancient lady's magic.

Facts About the Mounties

Last Year Force Consisted of 1,671 Men of All Ranks.

Last year the Royal Canadian Mounted Police consisted of 1,671 men of all ranks, having 942 horses and 113 dogs.

They maintained 11 Divisional Posts, and were divided into 127 Detachments of which 97 were in the four western provinces extending from the Upper Great Lakes to the Pacific Coast.

During the year the force purchased 207 horses at an average cost of \$144. Forty of these horses were purchased in Ontario, 4 in Manitoba, 40 in Saskatchewan, 102 in Alberta, and 21 in British Columbia.

Chinese Presents For France.

Bringing with him three wagonloads of presents for the French Government, Mr. Chu Chi Chou, Chinese special envoy, arrived in Paris recently. Among the presents offered by China to France and especially intended for Paris universities is a magnificent piece of embroidery 3,000 yards old.

A town cannot grow without business. By helping your local dealer you assist the community.

China and Germany are apparently no closer to an actual restoration of diplomatic relations than they were six months ago, in spite of the fact that unofficial delegations are at work in both countries trying to perfect a treaty.

Herr von Borch heads the German delegation which is working in Peking and Dr. Chang is chairman of the Chinese delegation which is living at the Chinese legation in Berlin.

Although China passed a resolution declaring it was at peace with Germany, following the refusal of the Chinese to sign the Versailles Treaty because of the discrimination made of Shantung province, the Chinese Government has not yet abrogated its legislation forbidding Germans to carry on business in China.

Consequently, German firms are unable to conduct business with the Chinese in the name of German citizens. While the Chinese war legislation is not rigidly enforced, it still stands in the way of the restoration of diplomatic relations, and German trade is not regarded as safe until there is some written agreement between China and Germany which will prevent legal complications.

It now seems unlikely that China will sign a treaty with Germany until the United States devises some plan of restoring diplomatic relations with Germany. China followed America's lead in breaking off diplomatic relation with Germany and did not enter the war against the Central Powers until the United States had done so.

When China entered the war it was as an associated power, and not as an allied power of the Entente. And now it stands with the United States as a non-signatory to the Versailles Treaty and critical of the provisions of that treaty. China is a member of the League of Nations, however, having gained admission to that body by signing the Austrian Treaty.

Theoretically, China is at peace with Germany. It has so declared itself by legal enactment. But all the legal steps necessary for the restoration of diplomatic relations must be taken before peaceful relations and commercial interchanges are possible.

China and Germany have not exchanged ministers and consuls. Dr. Chang has the same uncertain position in Berlin that Ellis Loring Duesel, the American Commissioner, holds. Both the Chinese and American representatives are in Germany merely through the courtesy of the German Government. And Dr. Borch is in Peking merely as a recognized negotiator without any diplomatic rights or privileges.

The Way To Reduce Expense

Study Farming And Have Only the Best Equipment.

1. To have good fences.
2. To have good seed of all kinds.
3. To have good stock of all kinds.
4. To have all modern machinery so that less men can do more work in the smallest amount of time.
5. By having good ground to a high yield can be obtained, to get as much off one acre as off two.
6. By having everything in good repair when going to work.
7. By organization so as to cut down the cost of getting to market.
8. By rotation farming and by dairying.
9. By studying farming as you would any other business.
10. By using your head as well as your hands, to see where you made your mistake, by keeping account of everything and by reading good papers.—J. A. H.

Germany Satisfies France

Embassy Thanked For Fulfilling Terms of Peace Treaty.

The Council of Ambassadors has sent a letter signed by Premier Briand to the German embassy, taking cognizance of the gesture of the German Government and its assistance in fulfilling its undertakings under the peace treaty. In a letter the council grants Germany a delay until September 30 for the transformation of the Diesel Motors from submarine use to civilian industry.

Liners Have Great Power Plants.

So general is the use of electricity on a big-ocean steamship that its generating station is of a size equal to that designed for the electrical requirements of a city of 100,000 inhabitants.

Distress In The Throat Caused Great Anxiety

Not an uncommon experience was that of Mrs. H. S. Wilmut, of Shule, N.S. "Many remedies failed, still splendid results were found in 'Castorhazone'." I have been a most dreadful sufferer from Bronchial trouble and Catarrh of the throat. I would hawk and suffer great distress in my throat. I used all kinds of medicine but did get permanent relief till I had Castorhazone. It strengthened my throat, stopped my cough, and made me well." Try Castorhazone yourself, see what wonders it works on a bad throat, or colds, catarrhitis, bronchitis. Different from the old way, because you breathe Castorhazone. Get the dollar outfit which includes the inhaler and lasts two months. Small size 50c. Dealers, The Castorhazone Co., Montreal.

Far Away Green Fields

By E. L.

Elizabeth had a hard day. It had been dismal and cold and the furnace had been giving trouble, and the babies had been cross, and as she looked discontentedly out at the snow-clad prairie, stretching away to the horizon, she made up her mind, as women sometimes will, that she and John and the babies should seek a warmer clime. What was the use of living in a place, though she to herself, where it was so cold and miserable for such a great part of the year and where the women and children were of necessity cooped up in the house all the time, and where, chief aggravation, they had to spend so much money on coal. No wonder, she thought, that so many people left this God-forsaken spot and went away to British Columbia or the Southern States where in the sunlight and the flowers life must be worth while.

And while she undressed the babies, she still called them the babies although Harold was two and Winifred nearly four, ways and means of getting out of the cold prairie country passed continuously through her mind. Of course she knew she would miss her old friends, but then if she could contemplate it surrounded by those she loved. No, like so many people who are guided mainly by impulse she did not go into the details at all. She decided that she hated this cold, hard snow-bound country and that she wanted to live where it was softer, more pleasant and beautiful. By the time she had kissed the babies "good-night" she had mentally persuaded her husband to give up his position, sell their home and, in fancy, she was sitting on the train with the children bound for the "sunny south."

As luck would have it John came home from the office somewhat dispirited. Everything had gone wrong there on that bitterly cold day; there had been misunderstandings

with the office force, a scene with the boss, and an aggravating story of conscientious and unappreciated effort, so that when Elizabeth unfolded her plans to him of getting away and sending themselves away to a place which her fancy began to paint as a veritable Utopia, he lent a ready ear and said: "All right, I'll put the house in Green's hands tomorrow for sale and if we get our price, we'll get out. I'll write to some firms where I might get a job and tell that sucker," meaning his boss, "to get someone else to handle his old job!"

It all worked like a charm. They were able to sell their house at a splendid figure, more than they had hoped for, and just when they were rejoicing over this piece of good fortune John received a very pleasing reply to one of his letters of application, offering him a good position in a small town in one of the southern states. Elizabeth was delighted, and even when they sold their furniture hardly felt a qualm, so pleased did she imagine she was to get away from the snow and cold of the prairies. It was only when her friends began to look sad and when mother shook her head sorrowfully that she felt any remorse, but she tried to cheer her mother up by saying: "Well, mother, if it's nice there, perhaps you could come too!" The old lady shook her head and remarked:

"I am getting too old to transplant now, Elizabeth. I came to this prairie country many and many a year ago from dear old Scotland which is beautiful enough, yet know, but I have gotten used to the ice and the snow and the wonder of the prairie which has golden grain in the summer after its travails of the winter months, and we have prospered here. Na, na, I wouldn't like to change again. The prairie with all her hardships has been a friend to me and mine and I'm thankful I'll be buried here."

Elizabeth knew the story of her parents' immigration to the prairie country, how they had come with nothing and how they had worked and striven and saved. For years there had seemed little reward for their efforts, but at last they came into their own and from poverty had gained comfort and a real competence in their later years, and for a moment a little doubt crept into her mind as to the wisdom of her plan and then she remembered the picture of the beautiful country to which they were going, which had been sent to her, and as she visioned the children, Harold and Winnie gambolling amidst the flowers and the roses, she banished all regrets.

When John and Elizabeth arrived in Maryland, the roses were in full bloom. The air was hot and the atmosphere somewhat heavy, but of this Elizabeth made no mention. She had determined to like her new surroundings. Then the little prairie bred children began to wilt in the heat and John looked paler and paler as the days went by. Elizabeth, though a sociable little soul enough among her own folks was shy and distant with strangers and the southern methods did not appeal to her. Her notions and so she was left very much alone. She, Elizabeth, who had been the centre of her little community at home!

"Mamma," said Harold one split day in July, when the bees hummed amidst the flowers, and the grapes hung heavy on the vines which climbed about the house, "My head aches and my tummy hurts, I would like to see my Gamma." The usually bright little fellow stretched himself quietly on the couch in the sitting room and Elizabeth felt a pang of dread as she looked at his heavy eyes and pale little face. He had never been sick at home. She glanced quickly at Winnie and thought the child seemed odd. "Was this to be the result of leaving her home and friends so that they might play in the sunshine? She asked herself. Was she to lose either or both of her children? Her heart cried out in protest as she flew to the telephone and called a doctor.

Both the children were very very ill, and the doctor told Elizabeth and John that the climate did not agree with them. John, too, had an illness and Elizabeth felt herself drooping and languid, but she felt she dare not let herself go for the sake of the others and many were the anxious pleading prayers she prayed that they all might be spared to return home again. She thought so drearily so lone some amidst all the beauty and languor of the south, and actually longed for the snow-bound wintry streets of her own little prairie town and did not feel that she cared how much coal they had to burn, if only she could feel the invigorating frost bitten breezes again, which she felt put new life and vigor and ambition into people.

So John wrote to his old cranky "boss," and received a letter from him in reply which brought tears to both

Always bears the Signature of *Charles H. Watson*

their eyes as Elizabeth and he read it. It said that they would be no too glad to have him back, and promised him an advancement in the very near future, and hinted, wisely, too, that for a young man there were no better opportunities than in the prairie country.

And six months from the time they left the little town they returned. They had spent a great deal of money and the babies had suffered much, but Elizabeth and John had learned a wonderful lesson regarding distant green fields which seem so beautiful in most of our lives, at some time or other, and which prove merely a mirage after all.

And they settled down to make the best of their lives on the prairie, with its cold, its snow and its hardships, for they had found that there were sufficient compensations to them to make up for the whole of the sunny south-land.

Plants Generate Electricity

Would Solve Light Problem If It Could Be Used.

All living plants generate electricity and when they die this is discharged into the air. If science could only devise some plan for capturing this dissipated electricity, and harnessing it to the use of man, the problem of light and power would be solved for all time; for countless millions of plants are constantly dying all over the world, and releasing an immense amount of electricity. Electricians tell us that if it were possible for all the trees in a forest to die at exactly the same moment a terrible catastrophe would be the result. Every body living within a radius of many miles would be instantly electrocuted, and all animals and birds in the same area would suffer a like fate.

France Has

Currency Problem

Experimental Issues of Paper Money Proved Failure.

France is facing a serious problem in supplying a currency to take the place of small silver change, which disappears like magic in this country. Experimental issues of paper money in small denominations have not met the problem and have resulted only in general exasperation.

This paper currency becomes ragged, and the Government decided to replace it by aluminum coins. It requires small money to the value of 400,000,000 francs to meet the requirements of francs, however, and the mint has a maximum capacity of 100,000,000 francs per year.

Summer Storage of Coal.

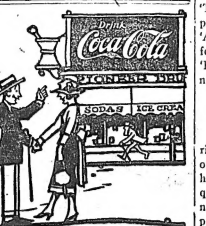

On the subject of storage of domestic coal during the summer it has been usual in England when coal was stored without shelter, that a wall was built of coal blocks around the central pile, and a coat of whitewash applied over all; and that this had the effect of preserving the coal from the action of the weather.—Edmonton Bulletin.

The patriotic man is loyal to his country and to the community in which he lives. If he is consistent he will give first preference to Canadian made goods when making purchases. He will also stand loyally by his local dealer.

Good Price For Bulls.

At the annual sale held at Edmonton this spring thirty-one Herefords, including calves, from ten to eighteen months old brought an average price of \$245 per head.

Jealousy bears a lot of fruit that should not be preserved.

DELICIOUS AND REFRESHING
THEY all go to the corner drug store, where Coca-Cola is the perfect answer to thirst. THE COCA-COLA COMPANY

"Your Teeth"

By Rea Proctor McGee, M.D., D.D.S., Editor of Oral Hygiene.

THE THIRD HAND.

Copyright, 1921, by Rea Proctor McGee.

It is very amusing to see a couple of foreigners, or even home folks sometimes, waving and gesturing wildly with their hands in an ordinary conversation.

We don't seem to consider that it is up to the hands to help with the talk and do a little of the mouth's work occasionally; the mouth certainly does enough of that belongs to the hands.

From our earliest infancy to-tottering old age we use the mouth as an amateur workshop, testing laboratory, carry-all, thread-cutting, pencil-sharpening, lubricator, wrench, vice, weapon of offense and defense—and for unnumbered other duties in addition to its proper work.

In the mouth is commonly used as a third hand. This means an enormous amount of wear and tear—upon the teeth, gums and jaws—that does not come from chewing alone.

Almost everything that is put into the mouth has infection of some kind upon it.

The very fact that we suffer so little from this overuse of the mouth shows that the saliva must be a germ killer to a very considerable extent but the saliva does not always protect from infection from these outside sources.

Many very serious conditions arise from the "third hand" use of the mouth. In addition to infection the unreasonable strain upon the teeth often breaks the enamel and occasionally breaks off whole teeth, fillings are loosened, decay is encouraged and the irritation to the lips, cheeks, gums and tongue favors cancer.

The habit of biting things instead of cutting them causes a chronic inflammation of the membrane that covers the roots of the teeth and will cause the loss of the teeth. It is much more agreeable—and cheaper—to buy scissors.

In fact the value of the mouth is so great that it is poor economy to abuse it.

An Englishman's View

London Publisher Says America Is a Paradise Compared With England

To those who are disposed to take a gloomy view of conditions in this country may be commended the views expressed in the New York Times, by Ernest J. P. Benn, a London publisher, a recent visitor. "I wish," he said, "I had come here twenty years ago. It would have made me a better business man."

"You have no real poverty because you have no inefficiency. If any of you are poor you don't wallow in it; you have the determination to beat it and get up. Because there is no inefficiency and no poverty and no homelessness here, socialism will not become rampant as it is in England, where our Labor party numbers 10,000,000 people and has imbued fully half the population with the ambition to destroy capitalism. There is no possible chance that this collective idea will ever take root here, as it has all over Europe since the war because there is no sell in which it can grow. This is an industrial El Dorado."—Indianapolis News.

A Growing Bargain

Clever English Woman Got Ahead of Market Gardener.

Some of the English are quite as keen on saving and bargain driving as the Scotch. Take the following case. "You can't beat my old woman at getting the most for her money," said one Englishman. "She went to a market gardener and insisted on choosing a marrow that was still growing. 'How much for this one?' she says. 'Eight pence,' says he. 'Too cheap,' she says. 'What's the price of this little one?' 'Four pence.' 'All right, I'll have it,' and she pays for it on the spot. Then she says, 'But don't cut it now, I'll call for it next week.'"—Boston Transcript.

West Africans and Dictionary.

The "educated" West African negro rivals the Babu in the artless art of missing English polysyllables. As he appears also to nourish get-rich-quick ideas he bombards firms whose names he finds in the dictionary with proposals to do big business. A Manchester man who collects these epistles has just received one which winds up with "Trusting you are in the same homogeneous gattagory, yours equitably, T. E. Atkins.—From the Manchester Guardian.

Merchants Bank Officials Express Tempered Optimism Regarding Business Situation

President and General Manager Review the Canadian Business Situation With Much Hope—Financial Position of the Bank an Exceptionally Strong One—Crop Outlook Encouraging.

At the annual meeting of the Merchants Bank of Canada, the various reports which were presented showed that this institution occupies a commanding position in Canadian financial affairs. The addresses of the President, Sir Montagu Allan, and the General Manager, Mr. D. C. Macarow, were concise statements of present day conditions and contained an optimistic survey of the future. These reports showed that every department of the bank is in a most excellent condition, and would indicate that this bank is rapidly increasing the sphere of its influence in every avenue of trade and commerce at home and abroad.

The President's Address.

Sir Montagu Allan in part said: The general depression in business, felt to a greater or lesser degree in every country in the world, has affected the business of the bank to some extent, but we hope the low point of depression has been passed, and that there will soon be a change for the better. The coal strike in England which will doubt result in the loss of a great deal of trade, and the unrest and discontent which seems to prevail in nearly all the countries of Europe, 2,997, as against 2,622 in 1920, bring a serious financial situation.

Known and undeveloped resources are sufficient to ensure future prosperity. As mentioned in last year's report a further issue of \$2,100,000 of new stock was made, making the paid-up capital of the bank \$10,500,000, and by the transfer of the premium on the new stock to the rest account, the rest now stands at \$9,450,000. The shareholders of the bank now number 2,997, as against 2,622 in 1920, bringing an increase of 375 during the year.

Current loans and discounts stand at \$102,185,000, as against \$113,198,000 last year. It will be seen, therefore, that this bank continues to extend its ample share of assistance to the industry of the country.

General Manager is Optimistic. Following the president's concise yet comprehensive review of the situation, as reflected in the year's statements, said Mr. Macarow, there is little to fear for me to add beyond, perhaps, a word or two by way of amplification.

It will be observed that in comparison with last year's figures our total assets show a shrinkage of about \$7,000,000, or, roughly, 34 per cent, which, in view of all the surrounding circumstances must be regarded as a satisfactory showing, the liquid position being well maintained while the trend of our interest-bearing deposits for the same period has been steadily upward, an increase in that department of about \$7,000,000 being shown, but this gain has been more than offset by the decline in the total ordinary deposits. A year ago, however, under the heading of demand deposits, a sum of about \$8,000,000 stood to the credit of the Government in connection with Victory Loan payments. This amount, which was of a purely temporary nature, was withdrawn during the year so that, after making allowance for it, the total deposits and total assets about held their own, a satisfactory achievement we have no doubt you will agree.

Crop Reports Are Promising. Crop conditions throughout the country are at the present moment exceptionally promising. If I may say a word as to general conditions it will be one of tempered optimism, having a due comprehension of the many difficulties which require to be met but having, at the same time, a proper appreciation of the actual and potential riches of this country.

There are indications—that the monetary position is becoming speaking, is less stringent and that the general liquidity of credit now in evidence is continuing to develop further. Although, in the world, it is not difficult to be an optimist as to the future of "Canada Unlimited," to borrow the apt expression recently used by an eminent Canadian.

The Board of Directors was re-elected, with Sir H. Montagu Allan as President, and E. Howard Wilson as Vice-President.

Saskatchewan Offered

German Airplane

Souvenir From Canada Air Board Could Be Used.

A German airplane, to be added to the Saskatchewan tour souvenirs or to be available for flights, is the offer made by the Canada Air Board to the Saskatchewan branch of the Canadian Air Force Association.

The type of machine which would be donated has not been specified, but it is understood that it would be airworthy and not merely something to be put in a hangar and left "to be looked at." At present the only stumbling block to accepting the board's offer is the payment of the freight, estimated at about \$200.

Special Rate For Hay.

The Saskatchewan Department of Agriculture has indicated the railway companies to quote a special rate of \$10 per ton on hay from Montreal to any point in Saskatchewan, provided the feed is purchased by bona fide farmers through the municipal authorities.

It pays to patronize home industry. Buy from the merchants in your own town.

Berlin Buying Gold

Banks and Post Office Are Empowered to Search World.

The Reichs Bank and the post office have been empowered to buy gold of all kinds in the world's markets, in order to increase the gold reserves and facilitate repatriation payments without disturbing the basis of paper currency. They are paying 260 paper marks for two gold marks, and for one kilo of fine gold 5,700 marks.

There will be a new rate each week, according to outside currency prices. The Government imposes a tax of 10 per cent. on all sales except those of gold. By a law of April 28, barter of gold within Germany is prohibited, and also gold export. Only the Government may buy gold, but there are special official concessions to jewelers.

What Tact Is.

Tact is the surmounter of difficulties—the remover of obstacles. It is useful in all places and at all times. It is useful in solitude for it shows a man his way into the world, and in society and commerce, for it enables him to pass successfully through the world.

CLARK'S
Kitchen at your Service again this Summer

CLARK'S Tomato Soup
is such a treat - -

Fine ripe tomatoes fresh from the fields give it their delicious flavour, and all you have to do is to heat and serve.

CLARK SOUPS are made in 13 different sorts, and include chicken.

Like all "Clark Good Things" the price is moderate.

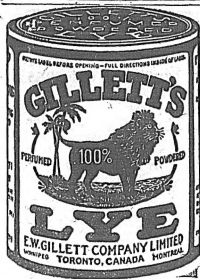

Made from Canadian Farm Produce and sold everywhere in Canada.

SUFFERING OF YOUNG WOMEN

This Letter Tells How It May be Overcome—All Mothers Interested.

Toronto, Ont.—"I have suffered since was a school girl with pain in my left side and with cramps, growing worse each year until I was all run down. I was told I had a weak stomach and that I was unfit for work. I tried several doctors and patent medicines, but was only relieved for a short time. Some of the doctors tried to perform an operation, but my father objected. Finally I learned through my mother, Lydia E. Pinkham's Vegetable Compound, and how thankful I am that I tried it. I am relieved from pain and cramps, and feel as if it had saved my life. You may use my letter to help other women as I am glad to recommend the medicine."—Mrs. H. A. Goodman, 14 Rockvale Ave., Toronto.

Those who are troubled as Mrs. Goodman was should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound. Those who need special advice may write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. These letters will be opened, read and answered by a woman and held in strict confidence.

World Happenings Briefly Told

The peace treaty with Hungary was ratified by the Paris Chamber of Deputies.

The Ford Motor Company of Canada has declared a dividend of 15 per cent. to shareholders, which will be paid soon.

The Bavarian Einwohnerwehr, or Citizens' Guard, has decided to disarm voluntarily by June 30, under the terms of the Allied ultimatum.

Mr. Lloyd George has been ordered by his physicians to take a complete rest. He is suffering as a result of a severe chill from overwork and has cancelled all his engagements.

Lord Byng, Canada's newly appointed Governor-General will officially open the Canadian National Exhibition in Toronto on August 27 next.

Peace River is wildly excited over a gold rush and several parties are "grubbing" up for a trip to a new find the exact location of which is not known.

After cutting every wire leading into the town, bandits blew the safe of the First National Bank at Williams, 18 miles east of Webster City, Iowa, and escaped with about \$4,000 in currency.

Belfast's stately city hall was gaily beflagged for the opening of the northern parliament, which will be only surpassed in brilliance of ceremony by the state opening of which has been fixed for June 22.

Sir Hamar Greenwood, chief secretary for Ireland, replying to an inquiry in the House of Commons as to the number of soldiers killed or wounded in the "war in Ireland" since January, 1920, said that 127 had been killed and 268 wounded.

In the Sudbury police court a settler was sentenced to one month in jail with hard labor for setting a fire which eventually destroyed half a million feet of pine timber. This is the first jail sentence on record to be meted out for this offence.

Since the inaugural meeting of the League of Nations Society on May 31, many applications for membership have been received. Among others, a unit of the Army and Navy War Veterans has enrolled its total membership.

Healthy, Happy Boys and Girls

Is your child healthy? Is he or she up to standard weight, of good color, with plenty of rich, red blood to nourish the growing tissues?

For children who are thin, pale, anaemic, under weight, nervous, restless, sleepless, Dr. Chase's Nerve Food is of the greatest benefit imaginable.

Being mild and gentle in action, and yet wonderfully potent as a restorative, it soon makes the blood rich and builds up the feeble nerves.

30 cents a box, 6 for \$2.75, all dealers, Dr. Chase's Nerve Food.

B. C. People Not Eating Chinese Eggs

Shipments Not Consigned to Chinese Residents Go East.

People of British Columbia are not eating Chinese eggs despite large shipments, according to the Department of Agriculture. Thirty-eight cartons of Chinese eggs were recently arrived, but they all went through the province to Winnipeg, Toronto, Montreal, New York, Boston, Philadelphia and Trinidad, B.W.I., with the exception of 109 eggs of salt eggs to Vancouver, and 25 to Victoria, consigned to Chinese residents. The eggs contained what is known as egg-meat—eggs shipped in liquid form without shells.

You May Have Kidney Trouble and Not Know It!

If your back aches and you suffer from dragging pains, it is an evidence your kidneys may not be acting just right. What you need is a course of Dr. Hamilton's Pills. They contain both Mandrake and Butternut and act very beneficially upon the kidneys and kidneys. You will be a great deal with my kidneys, but not quick relief from Dr. Hamilton's Pills. My trouble manifested itself by pain in the back and by constant headache. I quickly recovered after a few boxes of Dr. Hamilton's Pills. They brought me health, strength and vigor. Sold everywhere, 25c, or The Catarhozone Co., Montreal.

The Way To Get Through

Keep a Cool Head and Face Your Difficulties.

"Don't you be put out by anything," says Capt. MacWhirr in Joseph Conrad's "Typhoon" to his first mate during the crash of the clippers. "Keep your facing it. They may say what they like, but the heaviest seas run with the wind. Facing it—always facing it—thats the way to get through. You are a young sailor. Face it. That's enough for any man. Keep a cool head."

The British public are facing the prolonged coal stoppage in a spirit that would have delighted the gallant Captain MacWhirr.—British Weekly.

Persistent Asthma. A most distressing characteristic of this debilitating disease is the persistence with which recurring attacks come to sap away strength and leave the sufferer in a state of almost continual exhaustion. No wiser precaution can be taken than that of keeping at hand a supply of Dr. J. D. Kellogg's Asthma Remedy, a potent remedy for eradicating the disease from the tender air passages.

An Inch Of Rain

Weather Man Figures It Is 110 Tons Per Acre.

What is an inch of rain? The weather man has instruments for very accurate measurements of it, just as he measures the snowfall, the sunshine and the direction and velocity of the wind, to say nothing of the rise and fall of the temperature. An acre is composed of 6,272,640 square inches, and if there was an inch of water on it that would amount to 6,272,640 cubic inches. There are 27 cubic inches in a gallon, so that 6,272,640 cubic inches equals 22,000 gallons, and that much water would weigh 22,000 pounds, or 110 tons. It figures out, then, that an inch of rain falling is at the rate of 110 tons per acre. It is a good thing the tonnage is scattered over so much territory.

Irish Cattle Exports

Worth \$42,000,000 a Year

During War Country Sent 3,862,223 Head to England.

Before the cattle embargo commission, T. P. Gill, secretary of the Irish department of the Ministry of Agriculture, said that during the war, Ireland sent 3,862,223 head of cattle to Great Britain and last year's value of stock sent was over 42,000,000 pounds sterling.

The removal of the embargo, he said, would mean a marked reduction in home-bred stocks, which might prove dangerous in case restrictions were again imposed on supplies of cattle from abroad.

No change in British agricultural methods was likely to result in a substantial increase in production of stores in England and Scotland and with Irish energies diverted to other channels, Great Britain's nearest source of supply—and that an uncertain one—would be two thousand miles away.

There is always hope in a man who actually and earnestly works. In idleness alone is there perpetual despair.—Carlyle.

No matter how costly a thing may be, a woman considers it valueless when she has lost all interest in it.

Tangerine Crepe Makes Gay Frock

By Marie Belmont.

Tangerine is one of the colors greatly liked this season. It is chosen for the fashioning of this attractive dress that affects the lines so much admired by the young girl and woman of athletic build. The skirt is straight and slightly shirred at the waist-line. The blouse is cut with a U-neck opening. This, however, is partly filled in by a piece of silk which is designed with blocks of black and tangerine. The short sleeves are adorned in the same manner, while pieces of the checkerboard silk are set in where pockets might naturally be expected.

Report Discovery of Iron

One In Northern Ontario Also Contains Other Elements.

A discovery of a large body of high grade hematite iron ore in the Elk Lake district of Northern Ontario has been reported. Iron was not expected to be found in paying quantities in that district. Much of the iron ore in the great range of which the Atikokan and Moose Mountain deposits are a part is of 50 per cent. metallic content, but contains other elements that render necessary special blast furnace treatment.

Rural Route No. 1, Macouche, Que. The Minard's Liniment People. One day I felt that I should be doing a wrong if I neglected to write you. I have had four months growing on my head for years. I had them cut off by a surgeon about fifteen years ago, but they grew again, till about three months ago I had one as large and shaped like a lady's thumb on the very place where my hair should be parted, and it was getting so embarrassing in public that it was a constant worry to me. About three months ago I got a bottle of your liniment for another purpose and saw on the label good for tumors. Well I tried it and kept at it for exactly two months, with the result that it has entirely removed all traces of the tumor, and were it not that they had been cut fifteen years ago, you would have seen it. I have not been asked for this testimonial and you can use it as you see fit.

(Signed) FRED C. ROBINSON, P.S.—I am a farmer and intend using Minard's Liniment on more for a strained tendon, and am hoping for some results.

FRED C. R.

Few Of Them.

"The young man who does not read the newspapers intelligently has little interest in things worth while," said Thomas A. Edison the other day. "This failure to be interested indicates that the mind is not functioning properly, that the brain is atrophied." Fortunately for the world's progress, there are mighty few of them.—The Fourth Estate.

An Oil that is Prized Everywhere.—Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

Area Sown To Fall Wheat

Largest Proportion Winter Killed Was In Ontario.

The area estimated to be sown to fall wheat for 1921 was 792,200, of which 738,500 acres were in Ontario, 38,000 acres in Alberta and 14,900 acres in British Columbia, according to the first crop report of the season issued by the Dominion Bureau of Statistics. The proportions winter killed are reported as eleven per cent. in Ontario and five per cent. in Alberta; in British Columbia the crop was practically uninjured.

Even when the unexpected happens there is always someone who says: "I told you so."

Canada Chose Her Governor-General

London Times Says Dominion Virtually Made Appointment.

Commenting on the appointment of General Lord Byng as Governor-General of Canada, the London Times says the choice could not be bettered, for it endorses a preference expressed in many parts of the Dominion. "Lord Byng will go to Canada as to the home of countless friends," the Times says.

Though the actual appointment of the Governor-General rests with the King and his advisors in this country, the Times thinks that it is not too much to say that in this instance the Canadian people have made their own choice. If such preferences on such excellent grounds of close personal knowledge could be expressed with the same frankness every time an appointment of the kind had to be made, it would be a good thing for both this country and the Dominions also, is the Times view.

Killed By Blood Poison

Used an old razor for parting his curls. Foolish because 25c buy a bottle of Putnam's Painless Corn Extract which for fifty years has been removing corns and warts without pain. No failure if you use "Putnam's." Refuse a substitute, 25c everywhere.

Doing Things.

Wisdom is knowing what to do next. Skill is knowing how to do it, and Virtue is doing it.—David Starr Jordan.

A DESIRE TO EAT WHAT YOU WANT

Stomachs Can Be Restored to a Healthy Condition.

Not to be limited in diet, but to eat whatever he pleases is the dream of every dyspeptic. No one can honestly maintain to restore any stomach to this happy condition, because all people cannot eat the same things with equally satisfactory results. But the digestive organs that a pleasing diet may be selected from articles of food that cause no discomfort.

When the stomach lacks tone there is no quicker way to restore it than to build up the blood. Good digestion without rich, red blood is impossible, and Dr. Williams' Pink Pills offer the best way to enrich the blood. For it is possible to get one's blood in good in stomach trouble attended by thin blood, and in attacks of nervous dyspepsia. Proof of the value of Dr. Williams' Pink Pills in cases of indigestion is given by Mr. John A. McDonald, Tarbot, N.S., who says: "I have suffered for years with my heart-felt sympathy, as I was once myself a bond slave to it. Eating at all became a trial, and as time went on I became a mere skeleton of my former self. I took all sorts of recommended medicines, doctors' prescriptions, but nothing helped. Then a friend said to try Dr. Williams' Pink Pills. I got a box and I thought before they were done I could feel a change. Then I got six boxes more and by the time they were used I was eating my meals with regularity and gusto, and it is no wonder that I am an enthusiastic advocate of Dr. Williams' Pink Pills."

You can procure Dr. Williams' Pink Pills through any dealer in medicine or they will be sent you by mail at 50 cents a box or six boxes \$2.50 by special writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

A spinster who is still living in her says that the marriageable age is anywhere between the seminary and the cemetery.

Pearls are the favorite ornament of Queen Alexandra. Her fondness for them is well known, and she has seldom been photographed or painted without rows and ropes of them.

Better Times Ahead

Recent Annual Merchants Bank Meeting Gives Encouragement.

In this period of doubt and hesitation concerning the outcome of the economic strain which the financial and industrial world is undergoing in its travel back to normal from the abnormal developments of the war period, expressions of opinion from those who are qualified to express opinion are naturally much appreciated.

From no source, perhaps, comes such valuable information as from banking sources. Bankers sit in the watch towers of industry.

The annual meeting of the Merchants Bank of Canada brought out expressions of opinion from the president and general manager which cannot but have a good effect upon commercial sentiment in Canada. "In these opinions was much of warning to industry to go carefully until difficulties in the way of complete recovery have been overcome. At the same time, a strong note of optimism ran through the official remarks, the effect of which is all the more encouraging by reason of the recognition that these remarks were carefully considered and prepared with the knowledge that they would go on record and have an important bearing upon the action of the community."

From Sir Montague Allan, president of the Bank, came the view that the low point of the depression has been passed. This is a crucial point. From time to time the hope that the worst is behind has been indulged and acted upon with unfortunate results. Matters, instead of improving, became worse and those who made their commitments in the belief that the road had been cleared, came to grief.

Sir Montague expressed the view that there will soon be a change for the better. While expressing confidence in the future prosperity of the country, he took occasion to advise the customers of the Bank to exercise much caution in making new commitments, at the same time making allusion to the coal strike in England and the unrest and discontent in Europe and the serious financial problems arising therefrom.

He concluded this portion of his address by declaring that, with the known and undeveloped resources of this country, no man here, who is strong and healthy, could long afford to be a pessimist.

D. C. Macarow, the general manager, after alluding to several particulars of the financial statement for the past year, passed on to the discussion of general conditions. In this connection, his viewpoint was one of "tempered optimism," to employ his own descriptive term.

He pointed out that the banking institutions had a large "carry-over" in Western Canada by reason of the unfortunate crop failures, last season, in sections of that country and the resulting financial losses to farmers. A more encouraging note was struck, however, in dealing with the coming crop. Throughout the country the prospects were now exceptionally promising, and he expressed the fervent hope, in which all will join, that the actual results may measure up to present expectations.

An Odd Straw Hat.

One of the oddest straw hats in the world is that possessed by a Montenapoleone, Austria, cafe keeper. Every straw hat is then touched by the tips of royalty, for the hat is woven from the straws put in the drinks of the crowned heads of Europe who have frequented his cafe.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

New Invention

Proves Valuable

Large Sums Realized by Extracting Gold and Platinum From Sand.

A new machine for extracting valuable minerals from the black sands of the Queen Charlotte Islands has been tried at several places and proven entirely satisfactory. As a result a number of machines have been installed at various points on the coast and are operating. Gold and platinum are extracted from the sands paying fifty cents to one hundred dollars a ton, chiefly platinum.

Don't worry about slander; it will rub off when it gets dry.

Nervous Headaches Dizziness

COULD NOT SLEEP

Wherever there is any weakness of the heart or nerves, flagging energy or physical breakdown the use of Milburn's Heart and Nerve Pills will soon produce a healthy strong system. They renew lost vitality, build up the strength, increase mental activity, give nerve and brain power, improve the appetite and make rich, red blood, thus banishing nervousness, headaches, sleeplessness, nervous prostration, heart palpitation, shortness of breath, faint and dizzy spells, smothering feeling, anxious mental activity and all troubles arising from a run down system.

Mrs. M. Dammond, Youngs Cove Road, N.B., writes: "I was bothered very much with my heart and nerves; had nervous headaches and dizziness, could not sleep nights and my appetite was all gone. I was almost on a nervous breakdown when a neighbor told me to try Milburn's Heart and Nerve Pills. This I did, and before I had the second box used I was better."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Watchmaker Shows Skill In Boring.

An unusual boring has been performed by a watchmaker at Cambridge, Mass. He bored a hole through a pin lengthwise, and now has the pin with a wire running through the hole, as a proof of his skill. He claims to have worked on the principal of the telephone about the same time as Alexander G. Bell.

More men die of illness than of hard work.

Dated at Chinook this fourth day of June, 1921.

Horace Dunster

Poundkeeper, Collinwood.

Spencer Urges Better Method Handling Grain

The immediate necessity of evolving some scheme to handle and market the grain output of Western Canada, which would guarantee a fair return to the producers, featured the address of Nelson Spencer in his first appearance during the present by-election campaign, before the local electorate, last Thursday night.

In opening his address, Mr. Spencer pointed to the importance of the by-election and stated that he was in the fight inspired by a sense of duty and not on the grounds of personal ambition. He referred to his work in securing Federal relief for the farmers during the 1913-1914 drouth and also during the fodder problem of 1919. "The Dominion Government has been a friend of the people of these prairies," emphasized the speaker and it deserves credit for what it has done. Any settler who has tried to do the fair thing has never been asked for a return of these monies.

Touching upon the wheat situation, Mr. Spencer said that the time has arrived in the history of this country when the problem of handling the grain output of the west must be met and solved. He briefly reviewed the history of the Wheat Board and the present dissatisfaction existing owing to the spread in prices, etc., during the era of the open market.

Touching upon the railway problem, he touched its relation to the progress of Canada and stated that the Eastern manufacturers and business men were becoming more alive to the importance of western prosperity.

The railway situation in Canada formed the substance of the address of Mr. Blair M.P., Battle River, who preceded Mr. Spencer. He referred to the events leading up to and taking over of the Canadian Northern, G.T.R. and G.T.P. and their incorporation into the present national system.

In dealing with the progress of Alberta, statistics, he said, showed that this province was leading both Manitoba and Saskatchewan. This he attributed to the advancement made in the dairy and mixed farming industries.

Mr. J. L. Carter proved a capable chairman, quickly terminating some heckling which developed at the rear of the hall during the discussion.

GOLDEN CENTRE

IN FAVOR OF PLAN TO AID SETTLEMENT

The second meeting of Council of M. D. of Golden Centre No. 272, was held at 13-30-5-4, on Wednesday, June 1st.

Poundkeeper Walper was instructed to sell impounded horse at best offer he can secure.

Robert Jarrett was leased S. W. 16-31-6-4, at rental of all current taxes and ten cents per acre.

Western Colonization Association was advised that we endorse their plan re solution of unoccupied land problem.

Following accounts were paid: H. Brekke, wages as constable, \$68.00; F. A. Wilson, wages as constable, \$30.00; John Alexander, repairs on plow, \$5.00; Alberta Gazette, for poundkeepers and secretary, \$12.00; Thos. Barker, roadwork, \$12.00; Cereal Recorder, quarantine notices, \$7.50; L. C. Michaels, rent, \$25; N. D. Ross, salary, \$31.25; Ralph Greene, salary, \$258.33; Orr & Lees, repairs on fresnoes, \$7.50; Ralph Greene, express on supplies 60c; fees and mileage, meetings: W. B. Kirkpatrick, \$6.00; Frank Davidson, \$24.00; Ed. Stewart, \$7.63; E. B. Fulton, \$6.40; J. R. McConnell, \$17.80; A. B. Hughes, stamps, \$25.00.

John Rogers was employed as weed inspector at a wage of \$7 per day, to go where he is requested by ratepayers; circular letter to be sent out, asking to be advised of location of noxious weeds.

The secretary was instructed to draft by-law, protecting the public against open wells, loose wire, open granaries and loose grain on unfenced land.

A. L. Childers, L. A. Walper, T. Middleton, John Dahl and John Thompson were appointed poundkeepers for current year.

The Department of Health was requested to forward 25 health

SCHOOL PUPILS TO TRY EXAMINATIONS IN HOME CENTRES

This year a departure from the past method of holding departmental examinations for Grade VIII, and the High School has been adopted by the Department of Education.

Instead of the exams, being held at certain fixed centres to which all the surrounding schools sent their candidates, this year they will be put on in every school that has a candidate up, thus giving those writing the advantage of undergoing the test in their own familiar atmosphere, as well as saving them or their parents the expense of keeping them a week away from home, while writing.

PRAIRIE PALACE IS CHARACTERISTIC OF COAST RESIDENCES

Ye editor enjoyed a trip to Foster's farm out from Chinook a few days ago, where he was initiated into the mysteries of the big windmill and so on. He had the pleasure of seeing his first sod house and also one of the finest residences on the prairies, which is now being completed by Mr. Foster. Mr. Foster's long sojourn on the coast is characterized in the bungalow style of architecture embodied in the new structure.

NOT CONTAMINATED

Mr. A. R. Monroe, government veterinary, visited Morrison's farm near Collinwood a few days ago where he investigated reported disease among the cattle. He found that the stock was free from any dread malady, but was unable to grant the request for the erection of a dipping vat.

Mrs. Cecilia Fox of Youngstown spent the holiday, June 3rd, with her sister, Mrs. Hinds, here.
